

CRA-T 01: 1 Day Lake Manyara, Tarangire or Arusha National Park

Highlights: Game Drive, Game and Bird Watching, Picnic Lunch, Photography, Scenery,

This is a one day excursion to; L. Manyara, Tarangire or Arusha. Tanzania's national parks and game reserves cover almost 25% of the country and protect an estimated 20% of Africa's large mammals.

Lake Manyara lions have developed a liking for residing in the branches of trees, where they can both sleep and watch for prey whilst Arusha National park offers beautiful landscape and a diversity of game within its small boundaries. By contrast, Tarangire is most active during the dry season.

Departing from Arusha Town early morning

We depart with a Picnic Lunch from the lodge/ hotel to either of the National parks of your choice listed above for a game drive and return to Arusha Town by dusk.

Lake Manyara National park is serene and beautiful with main attractions of a rich bird life, tree-climbing Lions, its Elephants and Hippos which you can view from a closer range than most other parks. Lake Manyara is an Alkaline Lake and at certain times of the year is famous for hosting thousands of flamingos among other range of bird life. Although it is one of the smallest parks, its vegetation is so diverse enabling it to host a variety of wildlife habitats.

Tarangire National Park becomes most active during the dry season between July and November, when large herds of game attracted to the everlasting waters of the Tarangire River make this reserve every bit as appealing as the Serengeti. Tarangire National Park is more densely vegetated than the Serengeti, covered primarily in acacia and mixed woodland including baobab trees and supports similar large mammals to the Serengeti. It is also home to a variety of bird species.

Arusha National Park is a petite national park which not only guards Africa's fifth highest mountain, but it also brags obvious views to the continent's highest peak, a number of striking lakes, a stunning volcanic crater, a habitat assortment encompassing everything from rain forests to thriving savannah to alpine moor land, as well as a fine variety of great mammals and birds.
